

CONCRETE AND CLAY TILE UNDERLAYMENT WARRANTY

Thank you for your purchase of Malarkey Roofing Products® (Malarkey) underlayments for your tile roof. Malarkey warrants to you, the original owner (not the contractor or builder), that the Malarkey products used on your roof will be free from manufacturing defects that cause leaks for the warranty terms listed in Table 1. The underlayment must be installed by a state-licensed roofing contractor and installation must follow all applicable building code requirements and Malarkey installation instructions.

For any portion of the Malarkey underlayment that does not perform as stated above, after inspection by Malarkey's authorized representative and a positive determination of material defect, Malarkey will pay the cost of either repairing or replacing your Malarkey underlayment as follows: If your Malarkey underlayment has been applied for less than 10 years, Malarkey will pay the full reasonable cost to repair or replace any of the defective underlayment, including labor to re-install the Malarkey underlayment, including tear-off and disposal of the underlayment. This does not include the labor to remove and reinstall the primary roof covering or accessories, including but not limited to venting and flashing materials. **Malarkey reserves the right to arrange directly for your Malarkey underlayment to be repaired or replaced instead of reimbursing you for such work.** The remedy under this warranty is available only for that portion of your Malarkey underlayment actually exhibiting defects at the time of settlement. The replacement Malarkey underlayment, as well as any remaining original Malarkey underlayment, will be warranted only for the remainder of the original warranty period.

For a Malarkey underlayment system installed more than 10 years, the replacement shall be prorated based upon the number of months the underlayment has been installed on the roof.

CLAIMS PROCEDURE

1. If there is a suspected problem with the underlayment, the owner should first contact the roofing contractor. If the contractor believes the underlayment may be at fault, the owner or their contractor must notify Malarkey within 30 days of discovery and prior to any repairs being made to the roof. The claim must be accompanied by the proof of purchase. If you repair or replace your Malarkey products before you notify Malarkey of your claim or before Malarkey has completed its evaluation of your claim, your claim may be denied.
3. Malarkey will not be responsible for the cost of removal and replacement of any rooftop appurtenances or equipment

installations in order to conduct repairs for valid claims, such as, but not limited to, solar panels.
